"There's a great deal to be learned from the way a passenger lays down his fare. Take that chap who just dropped his ticket into the chopper's box. He paid for one ticket with a quarter, getting four nickels in change. The thing that gave him away was the way he laid down his coin. The average man slaps his nickel down and lets it lie. This man held his nickel curved in the first joint of his forefinger and tossed it gently toward me across the counier with reverse English—the trick of a poker player who can flips a coin upon a table and make it settie to the fraction of an inch. He didn't take the nickel that way intentionally. It's simply a habit."

With San Francisco.

FACTS FOR THE FANS.

The Saints started out with their first game with the Pirates as if they intended to make a showing in the coming series. The fans here did not look for a victory on the first day, and were agreeably surprised. Now that the locals have proved that McCloskey's aggregation can be beaten, it would not be a bad idea to go in and win at least three out of the six games.
